IF232RS232 Kenwood Serial Port to RS-232 Adapter

Installation:

Hardware Installation:

Installation of the PIEXX IF232RS232 adapter is very easy. Simply plug the 6 pin Din connector into your radios appropriate AUX connector. Next, connect the IF232RS232 9 pin D connector to your computers RS-232 serial connector. Finish the installation by plugging the supplied wall transformers power lead to the 2.1mm jack on the PIEXX IF232RS232 adapter and then plugging in the wall transformer to your 110VAC main.
